

Grid “The Great Grid Upgrade” plans for Chesterfield to Willington

Feedback from the consultation events, run by National Grid, has identified significant gaps in the information available.

Two groups have been set up to help residents:

- 1) Save Amber Valley
 - have organised two events that are open to anyone to attend, to learn more about the consequences of the plans, and the possible ways to mitigate them. These events are as follows:
 - 7th August 19:00 Ashover Parish Hall, Milken Lane, Ashover S45
 - 21st August 19:00 Wessington Church
- 2) Stop The Pylons Derbyshire
 - Have a Facebook group - Stop The Pylons Derbyshire – which you can join.
